Who Is This Product Designed For?

- Investors with a Balanced risk profile (Risk Score 4-6) seeking income and real-asset diversification.
- Investors comfortable with listed real estate's sensitivity to interest rates.
- Investors seeking an alternative income source to traditional bonds.

Key Risks

- Interest rate sensitivity: REIT valuations are typically sensitive to interest rate movements.
- Property market risk: rental income and property valuations can decline in a downturn.
- Market/liquidity risk: while underlying REITs are exchange-listed and generally liquid, prices can be volatile.
- Currency risk from non-USD REIT holdings.
- Not capital guaranteed and not a deposit; not covered by SDIC.
